From Sherry Housley, V.P.

A-G Approval

Merced Scholars has received A-G approval for many of our courses. This is great news for those students who are planning on attending a UC or CSU straight out of high school. These courses

include many of the core classes offered at MSCS and have been retroactively approved to the 04-05 school year, which is when MSCS was opened. This is a great achievement for us and one more

way to make our students competitive in getting approved to the college of their choice. For more information about this, please contact the Vice Principal.

Website

Questions about support classes? Questions about a policy or procedure? Check our

website. It has a wealth of information including a school calendar with all events and all MSCS policies, such as

dress code and student expectations. Our website also includes pictures of school events and links to other resources. Find it at charter.mercedlearn.org

Upcoming Events:

February 5 4:00-6:00 Advisory Board Meeting

February 14 Ag Career Industry Day in Tulare

February 18-22 President's Holiday Recess

Community Service Merced College

Any students who are interested in tutoring Special Education students in reading have an opportunity to work with students that attend school in our building. This is a great opportunity for community service as no extra transportation is needed. You can do this before or after your weekly appointment!!!

When your student has an appointment with Merced College counselor, Jeff Tasse, please make sure that a parent attends as well. He provides great information for your child's college course placement and can answer any questions you may have. This is an important part of your child's education so please schedule an appointment if you have not done so.

Safety

Please be sure to supervise all children that come to MSCS during your child's appointment time. Children should not be unattended in any part of the Science and Technology Building. MSCS only leases our space, all other areas and displays are the property of the Challenger Learning Center. Thank you for your cooperation.
